Special Needs Trusts are a special estate planning tool designed to allow assets to be transferred for the benefit of individuals with special needs, while preserving their eligibility for government benefits.

Once eligibility is determined, our attorneys will set-up and manage a special needs trust for your loved one that will allow you to provide during your lifetime or upon your death for needs not covered by government benefits including a wide variety of non-basic needs such as vacations or enhanced medical or other equipment. A main benefit to you of this type of trust is that you can include your disabled children or grandchildren in your estate plan without the concern of them losing needed government benefits.

We invite you to contact us today to learn if this trust is right for your situation.
